OBJECTIVE | I am looking to further my career in an industry that I am passionate about using my experience and knowledge in programming and web development with a company I can grow with.

SKILLS | HTML5, CSS3, JavaScript, Bootstrap, jQuery, AJAX, PHP, MySQL, Apache, Linux, XML,

SOFTWARE | Windows XP, Vista, 7,8,10 Adobe Photoshop, Adobe Dreamweaver, Microsoft Office Suite, FTP Clients

EXPERIENCE | **Vivid Racing**
Front End Web Developer /IT Administrator
Feb 2018 – Oct 2019 (Work on site and remotely)

Use HTML, CSS, JavaScript and Photoshop to create listings for the eCommerce website, as well as manage queue of modification requests. Scrape and export data from the manufacture and vendor websites. Reformat incoming data on the ETL Parser for automation. Create new categories and attributes in the admin system. Maintain weekly price updates on the Amazon portal. Use FTP/FileZilla to update data on the website. Train new hires on-site as well the remote data team. Use Slack to communicate with coworkers and management. Work directly with the owners of Vivid Racing and their sister company Agency Power on all IT and system admin needs, including diagnosis of software and hardware issues. Install new work stations and maintain the company networks.

WSI/Wheel Specialists
Warehouse/Delivery Driver
May 2017 -- Jan 2018

Made sure all incoming and outgoing wheels and tire sizes were correct to the specifications listed by the manufacture. Helped maintain all stock and inventory by ensuring product location was updated daily. Maintained a complete delivery and pick up route everyday

C&C Auto Aesthetics
Manager and Operator/ Professional Mobile Auto Detailer
July 2015 –May 2017

Manage and operate a mobile detailing unit equipped with professional detailing tools, chemicals and supplies. Provide accurate information to clients about their vehicle and its needs. Perform difficult and strenuous detailing tasks for long periods of time. Manage and maintain an entire client database as well as the company website and social media. Additional responsibilities include managing of all accounting / book keeping on a daily, weekly and monthly basis.

INILEX
Warehouse Lead/Programming Tech
August 2012 – July 2015

Oversaw all aspects and responsibilities in the warehouse. Processed all incoming / outgoing device orders daily. Performed monthly audits on all devices, hardware and product to maintain a system with little to no loss. Programmed all devices for its location and use for a list of different makes and models of automobiles. Worked with UPS daily to ensure all orders arrived on time.
